

APPLICATION FOR BIO-SAMPLES AND CLINICAL DATA FROM TOC- NETWORK

Applying Institution:

Coordinator:

Description of the project

Background:

Methods:

Timeline:

Link to clinical data:

Number of samples needed:

Type of the samples:

- | | | | |
|---|-----|---------|----|
| <input type="radio"/> Fresh frozen tissue | Yes | Nr. | No |
| Minimal content of malignant tissue | | | |
| <input type="radio"/> FFPEs | Yes | Nr. | No |
| Minimal content of malignant tissue | | | |
| <input type="radio"/> Serum | Yes | Nr. | No |
| <input type="radio"/> Ascites | Yes | Nr. | No |
| <input type="radio"/> PMBCs | Yes | Nr. | No |
| <input type="radio"/> Genomic DNA | Yes | Amount: | No |
| <input type="radio"/> Tumoral DNA | Yes | Amount: | No |
| <input type="radio"/> Tumoral RNA | Yes | Amount: | No |

Sample size calculation:

Patients' collective:

- Entity (primary or recurrent)
- FIGO stages
- Histological subtypes
- Grading
- Residual tumor mass
- Type of first chemotherapy
- Platinum Response
- Neo-adjuvant treatment
- Minimal median follow-up

Funding source:

Assessment of requirement for additional Ethics Committee approval
